

Daten versenden über Hyperlink

Unter file.valair.li

In Transfer Ordner übermitteln und auf den ausgewählten Ordner gehen, Aktion Link teilen:

Dieser mit Zeitraumdatum versehen:

The screenshot shows the 'file.valair.li' interface. On the left, a sidebar navigation includes 'Dateien', 'Transfer', 'Ordner erstellen', 'Aktion', 'Extras', and 'Einstellungen'. The 'Transfer' section is expanded, showing sub-options like 'AET 2020', 'Arnold_Jaword', 'Bouygues', 'imzulofte', 'OH_SCAN', 'Scan', 'SchulzScan', and 'AET 2020.zip'. The 'Arnold_Jaword' folder is selected. A central modal window titled 'Geteilte Verknüpfungen' (Shared Links) is open. It contains fields for 'Gültigkeitszeitraum' (Validity period) and 'Gültigkeitszeitraum festlegen' (Set validity period). The validity period is set from '2020-11-03 10:00:00' to '2020-11-04 20:00:00'. Below this, there are checkboxes for 'Sicherer Austausch aktivieren' (Enable secure exchange), 'Mit DSM-Benutzern teilen' (Share with DSM users), and 'Mit anderen teilen' (Share with others). A password field is also present. The 'Speichern' (Save) button is highlighted in blue. In the background, the 'Ordner' (Folders) section is visible, showing a list of shared links with their creation dates and times.

Link rauskopieren in E-Mail und dann speichern drücken. E-Mail versenden mit Link.
